

# Coursework Submission Instructions

This repository is designated for submitting your **A4 Coursework Summary, Executable Jupyter Notebook, PowerPoint Presentation**, and any **supporting supplementary files**. Each student must upload their files **to their respective folder** in accordance with the naming conventions and structure outlined below.

---

## Repository Folder Structure

Each student should have a dedicated folder named using their **P-number** (e.g., P123456). All required files must be uploaded within this folder.

### Example:

```

└─ P123456/
   └─ P123456-A4_summary.pdf
   └─ P123456_ppt.pptx
   └─ P123456_JohnDoe.ipynb
   └─ P123456_dataset.csv (optional)
```

---

## Technical Requirements

1. Ensure that the **Jupyter Notebook runs from start to finish without errors**.
  2. All **output cells must be visible** (do not clear notebook outputs).
  3. If using large datasets (>50 MB), upload them externally (e.g., Google Drive) and include a link in your notebook.
  4. All filenames must strictly follow the naming convention to avoid submission errors.
  5. Your PowerPoint and A4 Summary must be clear, concise, and aligned with your coursework objectives.
- 

## Submission Checklist

Before final submission, please verify:

- ☐ Folder named using your **P-number**
- ☐ All required files are present and correctly named
- ☐ Jupyter Notebook executes successfully without errors
- ☐ Outputs and visualizations are visible
- ☐ PowerPoint summarises your key findings clearly
- ☐ Final commit and push completed **before the submission deadline**
